### SAFETY DATA SHEET

Pro Form Products Ltd. 604 McGeachie Drive Milton, Ontario, L9T 3Y5 Canada 905-878-4990

# PRODUCT: PF 13008 1K HIGH BUILD PRIMER AEROSOL BLACK

FORM

### **SECTION 01: IDENTIFICATION**

	HMIS	Acrylic coating.
--	------	------------------

### SECTION 02: HAZARD IDENTIFICATION

Signal Word Hazard Classification	DANGER. Flammable Aerosols — Category 1. Gases Under Pressure: Liquefied Gas. Eye Irritation — Category 2B. Specific Target Organ Toxicity — Single Exposure — Category 3. (narcotic effects). (respiratory system). Carcinogenicity — Category 2. Reproductive Toxicity — Category 2. Specific Target Organ Toxicity — Repeated Exposure — Category
Hazard Description	H222 Extremely flammable aerosol. H229 Pressurized container: may burst if heated. H280 Contains gas under pressure; may explode if heated. H320 Causes eye irritation. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H351 This product contains ingredients that are suspected of causing cancer. H361 Suspected of damaging fertility or the unborn child. H372 Causes damage to organs through prolonged or repeated exposure.
Prevention	P201 Obtain special instructions before use. P202 Do not handle this product until all safety instructions have been read and understood. P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking. P211 Do not spray on an open flame or other ignition sources. P251 Do not pierce or burn container, even after use. P260 Do not breathe mist, vapours, or spray. P264 Wash thoroughly after handling. P270 Do not eat drink or smoke while using this product. P271 Use only outdoors or in a well ventilated area. P280 Wear protective gloves and eye protection.
Response	P305 + P351 + P338 If in eyes rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing until medical help arrives. P337 + P313 - If eye irritation persists get medical attention. P304 + P340 - If inhaled remove person to fresh air and keep comfortable for breathing. P312 Call a POISON CENTER/doctor if you feel unwell.
Storage	P233 Keep container tightly closed. P403 Store in a well ventilated area. P405 Store locked up. P410 Protect from sunlight. P412 Do not expose to temperature exceeding 50°C / 122°F.
Disposal Note	P501 Dispose all unused, waste or empty containers in accordance with local regulations. This product mixture has been classified based on its ingredients.

### **SECTION 04: FIRST-AID MEASURES**

Eye contact	In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at least 15 minutes. Check for and remove any contact lenses, if safe and easy to do so.
Skin contact	Obtain medical attention. Remove all contaminated clothing and immediately wash the exposed areas with copious amounts of water for a minimum of 30 minutes or up to 60 minutes for critical body areas. If
Inhalation	irritation persists, seek medical attention. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is
Ingestion	difficult, give oxygen, obtain medical attention. If ingestion is suspected, contact physician or poison control center immediately. Do not induce vomiting. If spontaneous vomiting occurs have victim lean forward with head down to prevent aspiration of fluid into the lungs. Never give anything by mouth to an
Most important symptoms and effects, whether acute or delayed	unconscious person. Harmful if swallowed, in contact with skin or if inhaled. May cause mild skin irritation. May cause slight eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Direct contact with eyes may cause temporary irritation. This product contains ingredients that may cause cancer. This product contains ingredients that are
Additional information	suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure. Treat victims symptomatically. The main hazard from ingestion is aspiration of the liquid into the lungs producing chemical pneumonitis. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.

#### SECTION 05: FIRE-FIGHTING MEASURES

Suitable and unsuitable extinguishing media	"Alcohol" foam, CO2, dry chemical. Water fog. Do not use water in a jet.
Specific hazards arising from thehazardous product, such as the nature of any hazardous combustion products	Extremely flammable aerosol. Aerosol can will explode if heated. Thermal decomposition products are toxic. May include:. Oxides of carbon (CO, CO2). Hydrocarbon fumes and smoke.
Special protective equipment andprecautions for fire-fighters	Extremely flammable aerosol. Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. Solvent vapours may be heavier than air and may build up and travel along the ground to an ignition source, which may result in a flash back to the source of the vapours. Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and

### SECTION 06: ACCIDENTAL RELEASE MEASURES

may cause explosive rupture.

Methods and materials for containment and cleaning up

#### SECTION 06: ACCIDENTAL RELEASE MEASURES

Leak/spill	No action shall be taken involving any personal risk or without suitable training. Ventilate. Eliminate all sources of ignition. Evacuate all non-essential personnel. Avoid all personal contact. Contain the spill. Prevent runoff into drains, sewers, and other waterways. Absorb with earth, sand, or another dry inert material. Pick up waste material and place in an appropriate container for disposal. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, provincial, state, and federal regulations.
	and federal regulations.

#### SECTION 07: HANDLING AND STORAGE

Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Precautions for safe handling..... Do not smoke while using or until sprayed surface is thoroughly dry. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks or open flames. Always adopt precautionary measures against build-up of static which may arise from appliances, handling and the containers in which product is packed. Ground handling equipment. Avoid all skin contact and ventilate adequately, otherwise wear an appropriate breathing apparatus. Avoid breathing vapours or mist. Handle and open container with care. Employees should wash hands and face before eating or drinking. Keep away from heat, sparks, and open flames. Keep container closed when not in use. Conditions for safe storage, including any incompatibilities Store away from oxidizing and reducing materials. Store away from sunlight. Do not store above 50 deg C.

Appropriate engineering controls Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits. Local mechanical exhaust ventilation should be used at sources of air contamination, such as open process equipment, or during purging operations, to capture gases and fumes that may be emitted. Standard reference sources regarding industrial ventilation (ie. ACGIH industrial ventilation) should be consulted for guidance about adequate ventilation. Explosion-proof exhaust ventilation. Local exhaust ventilation is recommended. Wear an appropriate, properly fitted respirator when contaminant levels exceed the recommended exposure limits.			at sources of air erations, to capture garding industrial idance about		
Eye/type		Liquid chemical goggles.			

Wear skin protection equipment. The selection of this equipment depends on the nature of Gloves/ type..... the work to be done. The following gloves are recommended :. Chemical resistant gloves: butyl rubber, nitrile rubber, neoprene, PVC. Ethyl vinyl alcohol laminate (EVAL). Insulated gloves. (for aerosols). Wear adequate protective clothes.

Safety boots per local regulations.

Product is stable; hazardous polymerization will not occur. Stable at normal temperatures and pressures. Will not occur under normal temperature and pressure. Keep away from heat. Electrostatic charge. Strong oxidizing agents.

See hazardous combustion products section 5.

### SECTION 11: TOXICOLOGICAL INFORMATION

INGREDIENTS	LC50	LD50
Acetone	50,100 mg/m3 8 hours rat inhalation	5,800 mg/kg rat oral
Isobutyl Acetate	>13.24 mg/L /6 h rat	15400 mg/kg (rat oral) > 17400 mg/kg (rabbit dermal)
Propane	>1,464 mg/L 15 minutes rat	Not available
Isobutane	52 mg/L 1 hour mouse	Not available
Methyl Isobutyl Ketone	8.2 - 16.4 mg/L 4 hours rat	2080 mg/kg rat oral >16,000 mg/kg rabbit dermal
Talc	Not available	Not available
2-Propanol, 1-methoxy-, acetate	Not Available	8,532 mg/kg rat oral 5,000 mg/kg dermal rabbit
Ethyl 3-Ethoxypropionate	>998 ppm 6 hours	4,309 mg/kg rat oral 4,080 mg/kg rabbit dermal
Carbon Black	Not available	>10,000 mg/kg oral rat 3,000 mg/kg dermal rabbit
Toluene	8000 ppm rat inhalation 400 ppm mouse inhalation 24hr	5,000 mg/kg rat oral; 12,124 mg/kg rabbit dermal
Xylene	6350 ppm 4 hours rat	>3523 mg/kg rat oral
Ethylbenzene	No data	3,500 mg/kg rat oral 17,800 mg/kg rabbit dermal
Crystalline Silica	Not available	>22,500 mg/kg oral rat

**ECIS** 

### SECTION 11: TOXICOLOGICAL INFORMATION

			-
INGREDIENTS		LC50	LD50
N-methyl pyrrolidone		No Data	3600 mg/kg (oral, rat)
Route of exposure Effects of acute exposure	corneal damage. The arc eyes, nose and throat. In depression and narcosis overexposure by inhalati	an cause tearing, reddening and sw omatic hydrocarbon solvents in this high concentration, they may caus characterized by nausea, lightheac on. Can cause moderate skin irritat	product can be irritating to the e central nervous system ledness and dizziness from ion. Aspiration of material into
Effects of chronic exposure	Breathing high concentra effects. Chronic exposure neurotoxic effects includi blood damage and repro vomiting, abdominal pain breathing difficulties. Pro	mical pneumonitis which can be fata ations of vapour may cause anesthe e to organic solvent vapours have b ng permanent brain and/or nervous ductive effects among women. Sym I, headache, impaired memory, loss longed/repeated contact may cause	etic effects and serious health been associated with various s system damage, kidney, liver, aptoms may include nausea, s of coordination, insomnia and
Carcinogenicity of material	on laboratory animal inha carcinogen. Quartz (Crys has classified Toluene as ACGIH has classified To	oon Black as "Group 2B", possibly c alation studies. Ethylbenzene is clas stalline Silica) is listed by IARC in G s a Group 3 (Not classifiable as to it luene as a Group A4 (Not classifiab y IARC as a Group 3; not classifiab	ssified as an A3 known animal roup 1 as a carcinogen IARC is carcinogenicity to humans); ole as a human carcinogen).
Reproductive effects	Reproductive toxicity (de Ketone has been found t ketone passes through th maternally toxic levels. F ppm) to Toluene have be level exposure to Xylene	velopmental): N-methyl pyrrolidone o cause embryol toxicity in large co ne placental barrier. Toluene is feto Prolonged and repeated exposure c een reported to cause adverse fetal in some animal studies have been g embryo/fetus. The relevance of thi	ncentrations. Methyl isobutyl toxic in rats and mice at of pregnant animals (>1500 developmental effects. High reported to cause health
Specific Target Organ Toxicity		r dizziness. May cause respiratory	

#### **SECTION 12: ECOLOGICAL INFORMATION**

Environmental	Do not allow to enter waters, waste water or soil.
Persistence and degradability	Not available.

# **SECTION 13: DISPOSAL CONSIDERATIONS**

Information on safe handling for disposal . and methods of disposal, including any contaminated packaging

for disposal . Dispose of waste in accordance with all applicable Federal, Provincial/State and local regulations. Contents under pressure. Do not puncture, incinerate or expose to heat, even when empty.

### **SECTION 14: TRANSPORT INFORMATION**

TDG ClassificationUN1950 - AEROSOLS, flammable - Class 2.1 - This product meets limited quantity<br/>exemption when shipped in containers less than 1 Litre.DOT Classification (Road)UN1950 - AEROSOLS, flammable - Class 2.1 - Ltd Qty (1 Liter/0.26 Gallons).IATA Classification (Air)UN1950 - AEROSOLS, flammable - Class 2.1 - Limited Quantity. Do not ship by air<br/>without checking appropriate IATA regulations.IMDG Classification (Marine)UN1950 - AEROSOLS - Class 2.1 - EmS: F-D, S-U - Limited Quantity. Check IMDG<br/>regulations for limited quantity exemptions.Marine Pollutant.No.Proof of Classification.In accordance with Part 2.2.1 of the Transportation of Dangerous Goods Regulations (July<br/>2, 2014) - we certify that classification of this product is correct.
