

Tyre Dressing Non-Silicone

5 Litres
20 Litres

- PXSTD5
- PXSTD20

DESCRIPTION:

Non-Silicone Tyre Dressing is a special formulation designed for automotive panel and paint industry. It is an excellent alternative for silicone-based tyre dressings. It provides an even shine and preserves the tyres' black colour.

DIRECTIONS:

Wash tyres using Supershine Ripper and rinse thoroughly with fresh water. Once dry, apply Non-Silicone Tyre Dressing evenly using a brush and finish with a soft cloth to remove surplus dressing and even out the finish.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	Red
Odour:	Odourless
Specific Gravity:	ND
pH:	7+/-0.5

FIRST AID MEASURES:

Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Seek immediate medical attention.

Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment.

Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation:

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give Oxygen. Get medical help.
