WYATT MACHINE TOOLS

LEADING DISTRIBUTOR OF QUALITY BRANDS

Over 40 Years experience supplying to trade professionals in the Collision Repair, Marine, Painting & Decorating and Manufacturing Industries.

WELCOME

Wyatt Machine Tools is proudly a NZ owned and family operated business. For over 40 years Wyatt Machine Tools has imported and distributed power tools, collision repair equipment and surface finishing products to trade professionals throughout New Zealand.

We know that wasted time means wasted money, and that maximising productivity is crucial to maintaining your profits, especially when times are tough. With this in mind, our customers can rest assured we are committed to selling only top performing and competitively priced equipment and consumable products.

We are proud to represent a range of leading brands including; RUPES, Car-O-Liner, Farécla, Pro Form, Smirdex, Eco Touch, EN Chemicals, OMCN, and many more...

These brands represent our commitment to delivering high performance, high precision and high quality products to our customers at affordable prices. We constantly check prices to make sure we are competitive with our range of products.

We pride ourselves on our core value of maintaining exceptional customer service levels, with full product technical back-up on all items supplied and fast delivery throughout New Zealand. Our experienced sales force is available to call on customers in and around Auckland as well as providing assistance at our Penrose showroom.

All equipment is backed up by our qualified after sales service department which is dedicated to the maintenance and repair of our range.

Our website has been a real success story, offering customers 24hr ordering facilities, simply visit www.wyatt.co.nz.

OUR TRUSTED BRAND PARTNERS

High performance, reliability and unique design: a true "Made in Italy" know how.

RUPES has been a leader in the manufacturing of innovative power tools since 1947. RUPES is an Italian company that strongly believes that innovation and quality come above all else. Their tools are precision engineered and are an investment, which ultimately saves you time, materials and protects your health. RUPES use high quality materials with exacting tolerances to make their tools the best. RUPES employs a state-of-the-art research and development centre where all tools are computer designed and tailored to each respective market's demands. Their team of engineers have a passion for their work and therefore use the best components.

Car-O-Liner's devoted team of engineers design the future of collision repair systems.

Time and time again Car-O-Liner has made important landmarks. They were the first to introduce a universal repair bench with a mechanical measuring system in 1973, and the first to introduce a computerized electronic measuring system.

To meet customers' increasing demand for one-stop shopping they have expanded their product range to include a wide selection of collision repair products.

Car-O-Liner's collision repair equipment is the best made, the easiest to learn, the simplest to use, the best backed and the most productive – and productivity means profits. With Car-O-Liner equipment in your shop, your customers - the vehicle owners and insurance companies - will experience complete satisfaction from your work.

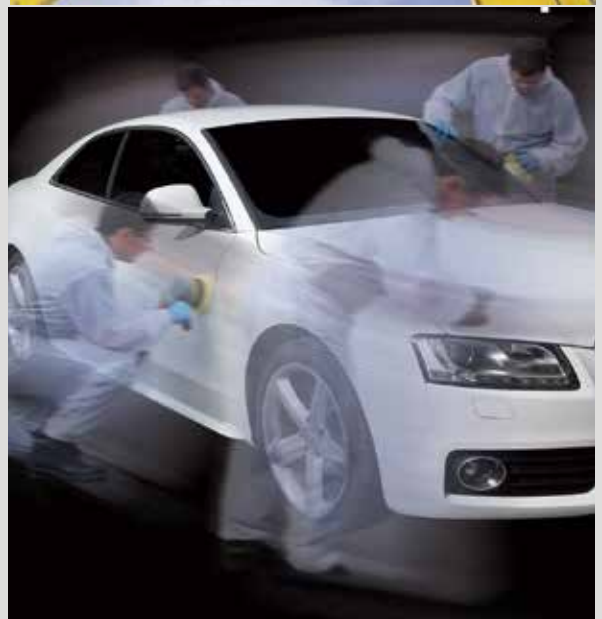

World-class surface finishing solutions for over 50 years

Farécla have been supplying the Automotive Refinish Trade, Marine and Industrial sectors for over 50 years and today lead the market by offering world-class surface finishing solutions with the aim of providing exceptional results. This is achieved by increasing productivity, improving turnover and providing the complete solution for all customers.

Farécla specialise in products that produce the best results, keep the process simple and save time and money. Results from Farecla's extensive research & development programme have proven that using the correct combination of compound and applicator is critical to achieving the best results.

Each Farécla compound is developed alongside the specific Farécla applicator to provide an integrated system based on leading edge technology. Farécla offer a wide range of general use and specialist rectification compounds, each developed to meet a specific need. The Farécla range also covers compounds for dark colours & hologram removal as well as glazes for a showroom finish.

RANDOM ORBITAL POLISHING SYSTEM

RUPES BIG FOOT POLISHING SYSTEMS

RUPES Big Foot Marine Compounds and Waxes

9BFGCOARSE
RUPES Big Foot Marine G-Coarse Compound
An ultra heavy cut high performance abrasive gel for gel coats and composites.
1 Litre

9BFGMEDIUM
RUPES Big Foot Marine G-Medium Compound
A medium cut high performance abrasive gel for gel coats and composites.
1 Litre

9BFGFINE
RUPES Big Foot Marine G-Fine Compound
A fine cut high performance abrasive gel for gel coats and composites.
1 Litre

9BFGWAX
RUPES Big Foot Marine G-Wax
A speed spray wax for protection and high gloss finish on gel coats and composites.
500ml

RUPES Car Care Range

9CCL301
RUPES Leather Fast Cleaner L 301
Ready to use dual action cleaning and protection for leather upholstery.
500ml.

9CCC701
RUPES Wheel Fast Cleaner C 701
A pH-balanced, colour changing wheel cleaner designed to gently remove baked-on brake dust, tar, and road grime from the wheels without damaging delicate finishes.
500ml.

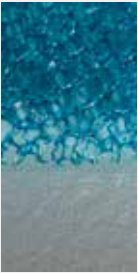

RUPES BIG FOOT POLISHING SYSTEM

RUPES Big Foot Foam Polishing and Finishing Pads

Your polisher, compounds and polishes are only as good as the pads you're using them with. This is especially true with the RUPES Big Foot Polishers because of the enormous stroke each tool makes. RUPES has spent a considerable amount of time developing foam pads that would not only work with the massive stroke of the Big Foot Polishers, but actually take advantage of it to deliver best results.

RUPES Big Foot foam pads are constructed of an innovative, super durable, 'open-cell' structure that is designed to withstand extended polishing sessions without the excess build-up of heat. The 24 degree bevelled edge ensures 100% surface contact so you get best results every time.

9BF40H / 9BF70H / 9BF100H / 9BF150H / 9BF180H RUPES Big Foot Polishing Foams Coarse - Blue

The large dimension of the cells dissipates any heat build-up. The Blue Coarse Foam Pad is very aggressive in its construction and was designed to be used with RUPES Zephir Gloss Coarse Gel Compound. This combination of pad and product, when used on the RUPES Big Foot Polisher, is capable of removing up to P1500 grit sanding marks on fresh paint. Swirls, light scratches, water spots and other paint imperfections will be effortlessly removed with this pad.

- The use of Zephir abrasive compound is recommended.

Per Pack

9BF40H	34/40mm	Pack 6
9BF70H	54/70mm	Pack 4
9BF100H	80/100mm	Pack 4
9BF150H	130/150mm	Pack 2
9BF180H	150/180mm	Pack 2

9BF40J / 9BF70J / 9BF100J / 9BF150J / 9BF180J RUPES Big Foot Polishing Foams Medium - Green

The Green Medium Foam Pad is very dense in its construction. The abrasive compound is not retained inside the sponge but is continuously applied to the work surface, providing a constant layer of lubricated abrasive between the surface and the foam polishing pad. Recommended compound/medium foam pad combinations:

- Quarz abrasive compound for optimum results on any type of surface
- Zephir abrasive compound to decrease correction time and still produce a good finish;
- Keramik abrasive compound for one-step applications.

Per Pack

9BF40J	34/40mm	Pack 6
9BF70J	54/70mm	Pack 4
9BF100J	80/100mm	Pack 4
9BF150J	130/150mm	Pack 2
9BF180J	150/180mm	Pack 2

9BF40M / 9BF70M / 9BF100M / 9BF150M / 9BF180M RUPES Big Foot Polishing Foams Fine - Yellow

The most versatile of the Big Foot pads, the fine pad adapts itself to the type of compound being used. Its fine cell structure has a medium/hard consistency. Produced from superior grade resins, the fine pad heightens the gloss level achieved, while offering excellent speed of corrections. Recommend combination with:

- Quartz compound for a quality finish in one-step applications
- Keramik (yellow) compound to remove light swirls and holograms on difficult surfaces
- Diamond (white) compound for extremely high gloss levels on very hard surfaces

Per Pack

9BF40M	34/40mm	Pack 6
PBF70M	54/70mm	Pack 4
9BF100M	80/100mm	Pack 4
9BF150M	130/150mm	Pack 2
9BF180M	150/180mm	Pack 2

9BF40S / 9BF70S / 9BF100S / 9BF150S / 9BF180S RUPES Big Foot Polishing Foams Extra Fine - White

Manufactured from a high-density resin that results in a particularly soft consistency with a very fine cell structure, this foam pad adapts itself beautifully to convex surfaces and irregular shapes typically found on sports cars and vintage vehicles. Its unique soft density makes it ideal for attaining an ultra-gloss surface finish.

- The use of Diamond abrasive compound is recommended for a "show car" finish.

Per Pack

9BF40S	34/40mm	Pack 6
9BF70S	54/70mm	Pack 4
9BF100S	80/100mm	Pack 4

9BF40U / 9BF70U / 9BF100U / 9BF150U / 9BF180U RUPES Big Foot UHS Polishing Foams

Designed for scratch resistant and high solid ceramic paints, the RUPES UHS Polishing System removes imperfections and leaves a high-gloss finish in just 1-step. The UHS foam pads also perform well with the RUPES Zephir (Blue), Quarz (Green) and Keramik (Yellow) compounds in heavy correction and gloss enhancement applications with most types of clear coat paints.

Per Pack

9BF40U	34/40mm	Pack 6
9BF70U	54/70mm	Pack 4
9BF100U	80/100mm	Pack 4
9BF150U	130/150mm	Pack 2

9BFUHS / 9BFUHS150 RUPES Big Foot UHS Easy Gloss Clearcoat Correction Compound

Designed for scratch resistant and high solid ceramic paints, the RUPES UHS Polishing System removes imperfections and leaves a high-gloss finish in just 1-step.

Per Unit

9BFUHS150	150ml
9BFUHS	1 Litre

RUPES Big Foot Microfibre Cutting and Polishing Pads

RUPES revolutionary microfibre cutting and polishing pads offer superb cutting and finishing abilities along with outstanding durability. Featuring industry-firsts, including a polyurethane resin that is injected directly into the structure between the Velcro interface and the microfibre fabric. The resin adheres directly to both materials to provide a stable and secure bond without using adhesives. This enables RUPES Microfibre Pads outperform all other microfibre pads on the market.

Thanks to the unique molding technique, these pads can conform to convex shapes during the polishing process, similar to a traditional foam pad. This ensures that RUPES microfibre pads are making contact with the surface 100% of the time, reducing polishing time and improving the overall finish quality.

RUPES Microfibre Pads are the first of their kind to offer innovative spiral slots in the design of the pad. These represent an important technical improvement with a unique design. These spiral slots dissipate heat at an enormous rate, allowing the pad and the paint to stay cooler.

Advantages to RUPES Microfibre Pads:

- Quick defect correction on hard (ceramic) clear coats
- High efficiency on all paint systems, including single stage
- Greatly reduced polishing times
- Less dust on the surface during polishing process

9F100XH2 / 9BF150XH / 9BF170XH2 RUPES Big Foot Microfibre Cutting Pads - Blue

Designed for removing heavy swirl marks, oxidation, scratches, water spots, and sanding marks from all paint systems. The RUPES Blue Microfibre Cutting Pad features a short and dense pile perfect for use with heavy cutting RUPES Big Foot Polishing Compound, like Zephir Gloss or Quartz Gloss. The special microfibre material allows for the true correction power of the product used.

Pack of 2

9BF100XH2	80/100mm
9BF150XH	130/150mm
9BF170XH2	150/180mm

9BF100XM2 / 9BF150XM / 9BF170XM2 RUPES Big Foot Microfibre Finishing Pads - Yellow

Designed to restore the depth and clarity to your vehicle's paintwork. The long and soft microfibre pile is perfect for removing light swirl marks, holograms, and water spots using an ultra-fine Big Foot Polishing Compound, like Keramik Gloss or Diamond. RUPES Yellow Microfibre Finishing Pads eliminate light imperfections while delivering a perfect finish.

Pack of 2

9BF100XM2	80/100mm
9BF150XM	130/150mm
9BF170XM2	150/180mm

RUPES Big Foot Abrasive Gel Compounds

These compounds are the results of in-depth research and consist of high quality abrasive mixes, all silicone free. The compounds are specifically designed to work with the RUPES Big Foot Random Orbital Polishers. Random orbital polishing compounds require a unique formulation to assure the product has the perfect combination of viscosity and abrasion. **ECO-FRIENDLY:** Water-based, silicone free and with a pleasant fragrance. VOC Compliant and Body -Shop safe, also suitable for use on marine/rv gel coat.

GEL FORMULATION: Avoid splashes, can be user longer, maintains the abrasive in suspension during machine and eliminates the dusting effect.

4 LEVELS OF FINISHING: Zephir, Quarz, Keramik and Diamond for the finishing of all surfaces, from freshly painted to fully catalysed.

The **CONCENTRATED COMPOSITION** enhances performance by 30% as compared to other equivalent products and reduces the amount used on equivalent machined surfaces.

9BFZEPHIR150 / 9BFZEPHIR RUPES Big Foot Gel Compounds: Zephir Coarse

ZEPHIR GLOSS COARSE is an ultra-heavy cut, high performance compound recommended for first step polishing. Its grain is the most aggressive of the 'Big Foot' abrasives and is used for the rapid removal of marks and scratches. The abrasive gel quickly eliminates up to P1500 grit sanding marks, scratches and swirl marks from fresh paint work. At the same time ZEPHIR is highly effective in restoring paints and creating a high degree of gloss. Designed to be used with a Coarse (blue) Big Foot Polishing Foam Pads on a RUPES Big Foot Random Orbital Polisher.

For best results follow application with RUPES Keramik Gloss Fine Gel Polish. This will further refine the surface, maximizing gloss before you apply your wax or sealant.

Per Unit

9BFZEPHIR150	150ml
9BFZEPHIR	1 Litre

9BFKERAMIK150 / 9BFKERAMIK RUPES Big Foot Gel Compounds: Keramik Gloss Fine

KERAMIK GLOSS FINE Gel Polish is the ideal composition for perfect finishes on particularly hard clear coats. It provides the perfect polish for restoring the shine and lustre to all paint systems. RUPES Keramik Gloss Fine Gel Polish has become a staple for professional detailers in Europe thanks to its amazing gloss and the halo-free finish. It is perfect for removing paintwork blemishes from all types of paints, including hard clear coats. Ideal for 'spot removal' or isolated trouble areas. It is capable of removing P3000 sanding marks in one easy step. It is exceptionally easy to use and is the perfect follow-up step to a more aggressive polish or compound. Use with Fine (yellow) Big Foot Polishing Foams on a RUPES Big Foot Random Orbital Polisher.

Per Unit

9BFKERAMIK150	150ml
9BFKERAMIK	1 Litre

9BFQUARZ150 / 9BFQUARZ RUPES Big Foot Gel Compounds: Quarz Gloss Medium

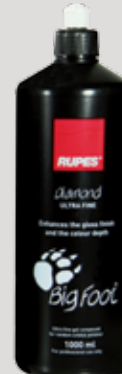

QUARZ GLOSS Gel Compound is a medium grain abrasive compound that easily removes minor surface scratches (up to P2500 grit sanding marks), minor scoring from sources such as car wash brushes, water spots and oxidation on all paint systems. Quarz Gloss can be used with full confidence that it will not leave halos or holograms.

You'll be rewarded with an exceptionally long working time and easy wipe off when you pair Quartz Gloss Medium Gel Compound with the RUPES Medium (green) Foam Pad on a RUPES Big Foot Polisher. To achieve brilliant reflections, follow with RUPES Diamond Ultra Fine Polish. This will create a true show-car shine that even the most discriminating enthusiast will agree is perfect.

Per Unit

9BFQUARZ150	150ml
9BFQUARZ	1 Litre

9BFDIAMOND150 / 9BFDIAMOND RUPES Big Foot Gel Compounds: Diamond Gloss Ultra Fine

DIAMOND ULTRA FINE Gel Polish is specifically formulated for the final finishing pass in the RUPES Big Foot Polishing System.

This ultra-fine polish utilizes micro abrasives that quickly polish away light swirl marks and holograms. The formulation brings out the very deepest colour and gloss of the paintwork surface. RUPES Diamond Ultra Fine Gel Polish was designed to be used with a RUPES Finishing Foam (white) Pad on a RUPES Big Foot Random Orbital Polisher.

Per Unit

9BFDIAMOND150	150ml
9BFDIAMOND	1 Litre

THE NEXT REVOLUTION: The RUPES Big Foot Nano with iBrid - a new era of innovation & flexibility

The RUPES Big Foot Nano with iBrid, is a compact and extremely light weight handheld multi-action tool that gives you unparalleled access to hard to reach areas. Orbital movement, rotary movement, polishing, sanding, cleaning, this all-in-one compact unit gives you an unparalleled amount of versatility and power for any job you throw at it.

What is iBrid?

Have you ever been burdened by the cables trailing behind and wished you had a battery pack? Well the iBrid technology has made that wish come true. iBrid can not only be used with a corded power supply, but with a battery as well! This dual powered machine comes with a "Plug & Play Power Supply" which allows it to act like any other corded tool, but it also comes with two Li-ION battery packs and a fast charge battery charger. 22-24 minutes is all you will need to charge the battery and each charge will run for up to 30 minutes on a single charge. The two battery packs allow you to use one in the tool, while charging the other. You will always have a battery charged and ready to switch out. LED indicators on the unit and the battery charger will keep you informed on how much power you have left in the battery pack you are using, and when your backup is charged and ready to go.

Multi-Action Movements

The RUPES Big Foot Nano iBrid allows the user to switch between rotary, 3mm random orbital, and 12mm random orbital actions in just seconds. This gives you an unparalleled amount of versatility and power for any job you throw at it. Heavy imperfections, light imperfections, swirls, it really does not matter, iBrid will remove these imperfections with ease! Additionally, a variety of brushes make detail cleaning easier than ever. Like all polishing systems in the Big Foot pedigree, careful attention has been paid to the user experience. You can expect ample torque and vibration free polishing.

This is an incredibly effective tool for headlights, spoilers, front bumpers, side mirrors, door handles, wheels, motorcycles etc. The RUPES Big Foot Nano iBrid will be an amazing addition to your detailing collection!

FARÉCLA AUTOMOTIVE COMPOUNDS, GLAZES & WAXES

Stage 1:
CUT

FAG3400 / FAG31000 / FAG33000
G3 Regular Grade Paste Compound

G3 Regular Grade Paste Compound is recommended for use on OEM and refinish paint systems. This versatile product can be used by hand or machine.

Special Features:

- Reliable cut: Removes P1500 or finer abrasive marks quickly and easily.
- Permanent finish: Contains no fillers so scratch marks will not reappear.
- High gloss system: Excellent gloss. Can be used with G3 Fine Finishing Compound for an enhanced gloss finish on dark colours.
- Silicone free.

Use with:
G Mop 150mm Wet Use Compounding Foam (FAGMC606) G Mop Back Plate for 150mm Pads (FAGMB614)

Per unit.

Stage 1:
CUT

FAG3E101
G3 Extra Abrasive Compound

A high performance, water-based cutting compound which removes P1500 or finer sanding marks from Medium Solids paint systems. This versatile product can be used with either wool or foam applicator pads. Silicone free. For use by machine.

Special Features:

- Fast Scratch Removal - Removes P1500 or finer sanding marks
- Surface Restorer - Restores oxidised paint work and dull surfaces
- High Gloss Shine - Improved gloss performance properties
- OEM Suitable - Ideal for detailing original manufacturer paint work
- Dry Use & Clean to Use - Easy clean up, minimal splatter or dusting
- Suitable with wool or foam pads - Versatility with applicators and provides a high cutting action with no or minimal swirl on either a wool or foam pad

Use with:
G Mop 200mm Double Sided Wool Pad (FAGMW806) G Mop Flexible Back Plate for 200mm Pads (FAGMB814)

FAG3U501 / FAG3U130
G3 Ultra Abrasive Compound

For unbeatable speed of cut, ease of use and quality of finish on today's most advanced modern paint systems, G3 Ultra is the best choice for newer model vehicles using today's ultra high solid, scratch resistant and ceramic coatings. Developed with Farécla's unique Fluid Dynamic Technology® emulsion system, the product permanently removes P1500 or finer sanding marks leaving a superior high gloss finish in just one step. Silicone free. Water based. For use by machine.

Special Features:

- **Unbeatable speed** - permanently removing P1500 or finer sanding marks
- **Provides superb final finish shine** - Scratches are permanently removed leaving a superior gloss finish
- **Increased lubrication** allows compound to work for longer without drying out
- **Throw off is minimised** with surface residue kept lubricated for easy wipe off

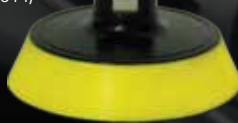

Use with:

G Mop Yellow Dry Use Compounding Foams (FAGMC612)

G Mop Back Plate for 150mm Pads (FAGMB614)

FAG3P506 / FAG3P101
G3 Premium Abrasive Compound

For cutting, finishing or both. G3 Premium will permanently remove P1500 or finer sanding marks from all modern paint systems, while leaving a swirl free, high gloss finish with reduced product consumption. G3 Premium has a transparent film, this allows the operator to see the work area when compounding. No delays in checking the job is complete.

Special Features:

- **Long Lasting, Powerful Cut** - Has a high cutting power which does not diminish over a short time.
- **Permanent Results Fast** - No fillers, no silicones, no die-back, no reworks. Removes P1500 scratch marks or finer PERMANENTLY
- **Better Slip No dragging, staining or hazing on fresh paints**
- **For use on ALL modern paint systems**

FARÉCLA PROFILE

Per unit.	
FAPRE301	3.2Kg

FAPRE301
Farécla Profile Extra Course Cut Paste Compound

Our "liquid sand paper", Profile Extra is a coarse, water-based cutting compound designed for aggressive compounding on tough resins and gel coats. It removes P600 dry sanding marks from most substrates, leaving a relatively low gloss finish. It is often used in the first stage of a two-step polishing process when high gloss is required. For use by machine.

Special Features:

- **Efficient in action** - rapid removal of deeper scratch marks up to P600
- **Strong and effective** - use on hard surfaces - composites, moulds or gel coats
- **Low gloss** - low level shine, suitable for use on stone and granite, or in the first stage of a two step finishing process
- **Durable results** - contains no added fillers, giving a permanent finish
- **Safe** - water based with low VOC content for safer working and easier clean-up

Use with:

G Mop Twisted Wool Compounding Pads (FAGMW801 / FAGMW806) G Mop Flexible Back Plate (FAGMB814)

Per unit.	
FAPRS101	1 Litre
FAPRS106	3.78 Litre

FAPRS101 / FAPRS106
Farécla Profile Select Liquid Compound

This compound performs best when run at high speed (2000 - 3500rpm). It is a great value, versatile cutting compound aimed at OEM applications.

Used with a G Mop Twisted Wool Compounding Pad, it quickly removes P800 or finer sanding marks from tooling or production gel coats in a one-step process. On painted surfaces, used with a G Mop Lambs Wool Pad, it will very quickly remove P1500 sanding marks and leave a good finish which can be further enhanced with Profile Finish.

Special Features:

- **One step on gel coats**
- **Versatile and swirl free**

Use with:

G Mop Twisted Wool Compounding Pads (FAGMW801 / FAGMW806) G Mop Lambswool Pads (FAGML301 / FAGML601 / FAGML801)

Per unit.

FAPRL101 / FAPRL106
Farécla Profile Premium Liquid Compound

A high performance, water-based cutting compound which removes P1200 or finer sanding marks from production gel coats and painted finishes, and is the perfect solution for restoring oxidised and weathered gel coat surfaces. Great on dark colours, it delivers a high gloss finish and is used as a one step product on white gel coats and as the first stage of a two part compounding process where higher gloss and lower swirl is required.

Special Features:

- **Removes up to P1200**
- **Permanent results with no fillers**
- **Fast results using less product than leading competitor**

Use with:

G Mop Twisted Wool Compounding Pads (FAGMW801 / FAGMW806) G Mop Yellow Compounding Foams (FAGMC312 / FAGMC612 / FAGMC812)

FAPRF101 / FAPRF106

Farécla Profile Finish Liquid Compound

Profile Finish is a new finishing compound designed to remove any light swirl marks and holograms from high quality painted lacquered and gel coat surfaces to leave the ultimate high gloss finish. It will not scratch and is particularly good on so coatings which are susceptible to swirl marks. Profile Finish is ideally applied using a Farécla G Mop Finishing Foam, which was engineered in tandem with the compound to provide optimum performance. For a higher cut, use with a G Mop Lambs Wool Pad.

Special Features:

- **Swirl & Hologram Remover** - quickly eliminated permanently
- **Surface Restorer** - Restores dull surfaces and enhances colour
- **Dry Use & Clean to Use** - Easy clean up, minimal splatter or dusting
- **Durable results** - contains no added fillers, giving a permanent high gloss finish

Use with:

G Mop Finishing Foams

(FAGMF301 / FAGMF601 / FAGMF801)

G Mop Lambswool Pads

(FAGML301 / FAGML601 / FAGML801)

Farécla Profile Polymer Wax Liquid Protection

Profile Polymer Wax is a high performance polymeric wax specially developed for ultimate gloss and water resistance. It is extremely fast and easy to use by hand or machine and is sufficiently liquid to be sprayed onto surfaces using either a small hand spray bottle or pump spray system. It is highly resistant to drying out and can be polished off easily to leave a durable high gloss on most surfaces.

Special Features:

- **Quick and easy to apply** - by hand or machine
- **Superb Finish** - Delivers a high gloss finish of excellent evenness and clarity even on blacks and dark colours
- **Protection** - Highly water resistant providing a durable protective coating repelling many common contaminants.
- **Sprayable** - Low viscosity sprayable formulation for ultra fast application

Use with:

G Mop Finishing Foams

(FAGMF301 / FAGMF601 / FAGMF801)

G Mop Lambswool Pads

FAPRW106	3.78 Litre

FAPRU101

Farécla Profile UV Wax Liquid Protection

Profile UV Wax is a high performance, Carnauba-based wax incorporating special UV absorbers to give added protection to gel coats and paints exposed to external weathering. The high Carnauba-based content ensures long lasting protection against rain and salt water whilst the UV absorbers protect against exposure to sunlight. Profile UV Wax will give a high gloss, long lasting finish on most surfaces and is particularly suitable for use on boats and caravans. Not as fast on and off as Polymer wax but significantly more durable (up to 3 months).

Special Features:

- **Effective Results** - Gives an excellent high gloss finishes to surfaces
- **Lasting Protection** - Highly durable, provides barrier against water and UV degradation
- **Laboratory Tested Reliability** - for extended weathering performance
- **Simple to Use** - Easy to apply by hand or by machine. It can also be used in damp weather and is resistant to drying out, even in sunny conditions

Use with:

G Mop Finishing Foams

(FAGMF301 / FAGMF601 / FAGMF801)

G Mop Lambswool Pads

(FAGML301 / FAGML601 / FAGML801)

FAPRD106
Profile Rapid Detailer Liquid Cleaner and Wax

Profile Rapid Detailer is a super-fast liquid spray wax for that 'just waxed' look or simply a quick clean. It removes surface contaminants including compound residue, light dirt, dust and fingerprints to leave a 'just waxed', high gloss finish. Provides a perfect complement to Profile Polymer Wax or Profile UV Wax Liquid Protection. Can be applied by hand or machine.

Special Features:

- Quick and easy to use - for a 'just waxed' high gloss look
- Easy on, easy off - Simply spray or wipe on, and buff off
- Suitable for all surfaces - Paintwork, Rubber, vinyl, plastic glass and chrome
- Waterless cleaning - Prevents the build-up of contaminants that can become ingrained between washes
- Resists drying out

Per unit.

FARÉCLA MARINE PROFESSIONAL RANGE

Cleaning your boat could be as simple as ONE, TWO, THREE, FOUR...

Farécla have launched a four-stage boat-cleaning range, designed to make life simple with an easy-to-follow cleaning process. Farécla formulas are the result of our work with professional boat builders worldwide and offer the best cleaning, restoration and protection for your boat. To get a professional high quality finish, follow our four steps to boat heaven...

FAMDCW
Stage 1: Wash

Deep Clean Wash removes entrenched grime, leaving a thin, non-slip layer. It is concentrated and can be used diluted for general overall cleaning or more concentrated to remove stubborn dirt. Some marks such as yellow staining and waterline marks cannot be removed by just washing alone and require special treatment.

FAMRSR
Stage 2: Revive

Rapid Stain Remover is a powerful acid based stain remover gel that will dissolve these stubborn marks and remove heavy discolouration. Having thoroughly cleaned your boat the next job is to restore surfaces damaged by weathering.

FAMSR
Stage 3: Restore

Surface Restorer is a water-based abrasive compound specially formulated for use on marine gel coat and painted surfaces. It can be used either by hand or by machine and will quickly remove fine scratches and stains restoring the colour and gloss to a showroom finish.

FAMUW
Stage 4: Protect

Lastly, an application of Ultimate UV Wax Polish. This protects your boat and gives a deep mirror shine which will last for up to 6 months.

500ml Bottle

EN CHEMICALS

Underbody

EN Chemicals 1000 Waterborne Antichip

Ready to use water based underbody coating that gives durable protection against stone chip and corrosion. Applied with a spray gun it forms an elastic layer with excellent adhesion on most surfaces. It will not crack in the cold. For internal and external parts of the vehicle. Can be diluted with water. Can be painted over with all paint systems.

Per unit.

ENWB1000	Black	1 Litre
----------	-------	---------

EN Chemicals 1100 Antichip Underbody Coating

Synthetic resin and rubber based coating. Durable protection against stone chip and corrosion. Fast drying. Long lasting elasticity. Excellent adhesion properties. Can be painted over with any type of paint.

Per unit.

EN1100W	White	1 Litre
EN501B	Black	1 Litre
EN501G	Grey	1 Litre

EN Chemicals 1200 Bituminous Underbody Coating

A bitumen based underbody coating with very good adhesion on metal surfaces that gives an effective protection against corrosion. It remains elastic over a wide range of temperatures. Brush or spray on. Can be diluted with thinner. Non paintable.

Per unit.

EN1200L	1 Litre
EN120020	20 Litre

EN Chemicals 1300 Cavity Wax Protection

A wax based underbody coating that permanently protects cavities of car bodies against corrosion. Applied with a spray gun it penetrates easily and forms a film on the surface that drives out humidity. Application of the product is recommended after the paint procedure.

Per unit.

EN1300	1 Litre
EN130020	20 Litre

Fillers

EN Chemicals 3100 Spray Filler 2K Polyester System

Suitable for filling pinholes and sanding scratches on large metal, alloy, plastic and wooden surfaces. Apply with spray gun and dilute if necessary. Air dry in 2-3 hours. Very easy to sand, guarantees a smooth surface. Mixing ratio (by vol.): 5%. Grey

Per unit.

ENSF08	800ml
--------	-------

EN Chemicals 3250 Lightweight Polyester Filler

Two component lightweight polyester filler with excellent filling properties. Suitable for metal, polyester and wooden surfaces. VOC compliant. Good vertical stability. Easy to sand. Fast drying. Pore free surface. White.

Per unit.

EN32501L	1 Litre
EN3250	3 Litre

EN Chemicals 3500 Fibreglass Polyester Filler

Two component fibreglass reinforced polyester filler. Suitable for filling and repairing great irregularities and corrosion damaged surfaces. Easy applied and sanded with an optimal adhesion and elasticity. Mixing ratio (by vol.): 3%. VOC compliant.

Per unit.

ENF750	750g
EN3500	1.5Kg

EN Chemicals 3700 Aluminium Polyester Filler

Two component polyester filler with aluminium powder and high filling properties. Suitable for metal and wood surfaces. Easy to sand, dries quickly. Gives a perfect pinhole free finish. Mixing ratio (by vol.): 3%. VOC compliant.

Per unit.

EN3700	1Kg
--------	-----

EN Chemicals 3750 Bumper Flex Polyester Filler

Two component polyester filler with excellent adhesion on plastic surfaces. Due to the high content of resin this filler has a great adhesion and high elasticity. Suitable for repairs on plastic bumpers except PE (Polyethylene). Mixing ratio (by Vol.): 3%. Black. VOC compliant.

Per unit.

EN3750	1Kg
--------	-----

EN Chemicals 3800 Fine Finishing Polyester Filler

Two component fine polyester filler. Suitable for repairing small uneven areas on metal, wood and plastic surfaces. It is also good for filling grooves and traces from sanding. Easy sanding with P150 grit paper for a pinhole free finish. Mixing ratio (by Vol.): 3%. VOC compliant.

Per unit.

EN38001	1Kg
---------	-----

EN Chemicals 3900 Multi Lite Polyester Filler

Two component light multi purpose polyester filler. Suitable for repairing uneven areas on aluminium, galvanized steel, stainless steel, chrome and bare steel. Easy sanding. Pinhole free finish. Hardener included. Dispenser pictured sold separately.

Per unit.

EN3900	1.65 Litre Filler
ENDISP	Dispenser

Primers

EN Chemicals 4100 Plast-O-Clear Primer

One component adhesion promoter primer for application on plastic parts excluding Polyethylene (PE). Ready to use, applied with a spray gun. It's fast drying and improves the adhesion of all kind of paints especially over the surfaces treated with EN1100 ANTICHIP.

Per unit.

ENPC4100A	400ml Aerosol
ENPC4100L	1 Litre

EN Chemicals 4300 2K HS Filling Primer 3:1

A two component high solid acrylic filling primer with excellent weathering properties. Can be applied as a filling primer or as a surfacer with perfect results. Fast drying. Easy sanding. The ideal substrate for all paints, old paints and unsanded OEM panels. 3 to 1 Mixing Ratio. Grey. Use with EN Hardener 1L #EN6600

Per unit.

EN4300	3 Litre
--------	---------

EN Chemicals 4400 2K HS Filling Primer 4:1

Two component high solid acrylic filler with excellent weathering properties. Can be applied as a filling primer or as a surfacer with perfect results. Fast drying. Good filling and covering properties. Easy sanding. The ideal substrate for all paints, old paints and unsanded OEM panels. Grey. Use with EN Hardener 1 #EN6600

Per unit.

EN4400	4 Litre
--------	---------

EN Chemicals 4700 Anticorrosive Primer

High quality one component alkyd based primer, suitable for the protection of metallic surfaces against corrosion. Zinc and lead chromate free. Can be applied with a brush, roller or spray gun. Fast drying. Can be diluted with thinner. Black.

Per unit.

EN4700A	400ml Aerosol
EN4700	1 Litre

Clearcoats

EN Chemicals 5650 4:1 Extra Fast Clear - Anti Scratch

Two component anti-scratch, high gloss Clear. 4 to 1 Mixing Ratio. Use with EN Hardener Extra Fast 250ml #EN6250.

Per unit.

EN5650	1 Litre
--------	---------

EN Chemicals 5800 2:1 HS Anti-Scratch Acrylic Clearcoat

Two component acrylic HS clearcoat. High quality, scratch resistant clear suitable for partial and total respray spot panel repairs. Easy to apply. High gloss finish. VOC compliant. 2 to 1 Mixing Ratio. Use with EN Hardener Fast #EN620025L or Hardener Normal #EN6100.

Per unit.

EN58001L	1 Litre
EN58005L	5 Litre

Paints

EN Chemicals 2K Acrylic Paint

Two component quick drying acrylic paint with optimal coverage and durable gloss. Mix 2:1 with EN Hardener Normal #EN6100 or Hardener Fast #EN6200.

Per unit.

EN2KBLACK	Black	3.75 litre
EN2KWHITE	White	3.75 litre

EN Chemicals Bumper Paint

One component fast drying thermoplastic paint for restoring plastic bumpers with smooth finish. Available in Black, Dark Grey and Texture Black. Mix 2:1 with Hardener Normal #EN6100 or Hardener Fast #EN6200.

Per unit.

ENBP1	Black	1 Litre
ENBPG1	Dark Grey	1 Litre

--------	-------

EN Chemicals 7700 Nitro Thinner
Thinner suitable for nitrocellulose coatings as well for nitrocellulose based surfacers and 1K filling primers. Recommended for cleaning of spray guns and paint tools.

Per unit.

ENNTSL	5 Litre
--------	---------

EN Chemicals Rapid Sealant
Rubber and solvent based air drying sealer suitable for filling and sealing visible joints and seams against corrosion. Dries quickly and remains elastic. Paintable with all paint systems.

Per unit.

ENR300	300ml
--------	-------

1K Fine Filler P980
Grey. V.O.C compliant. Fast drying.

Per unit.

ENP980	150g
--------	------

PRO FORM PRODUCTS

Pro Form Adhesives & Sealants

Pro Form Multi Purpose Contact Adhesive

Bonds all types of rubber and vinyl weatherstrip to metal substrates. It is fast drying and offers great bonding strength. It may also be used for bonding materials such as rubber or plastic foam and sponge, canvas, cork, leather and more to metal, wood, plastic and many other substrates. Amber.

Per unit.

PF18000	220ml
---------	-------

Pro Form Weatherstrip Adhesive

Bonds all types of rubber and vinyl weatherstrip to metal substrates. It is fast drying and offers great bonding strength. Can be used for bonding materials such as rubber or plastic foam and sponge, canvas, leather and more, to metal, wood, plastic and many other substrates.

Per unit.

PF18040	135ml	Amber
PF18042	135ml	Black

Pro Form Plastic and Emblem Adhesive

A clear adhesive to bond emblems to metal and plastic surfaces. Use this strong, quick-drying adhesive for plastic or metal emblems, interior rigid plastics, tail light, vinyl side moldings and many other applications. This product will not attack painted surfaces. Clear.

Per unit.

PF18020	135ml
---------	-------

Pro Form Heavy Duty Trim Adhesive

Clear high strength adhesive to bond many materials including carpet, insulation materials, urethane foam, lightweight headliners, fabrics, plastics, rubber and more. It offers excellent heat, moisture and water resistance. Adjustable spray pattern. Aerosol.

Per unit.

PF18302	445g Aerosol
---------	--------------

Pro Form Triple Strength Glass Cleaner

Ammonia fortified formula that will remove stubborn dirt, grease, grime, road salt, paint over-spray, smoke haze and bugs. Streak free special non-detergent formula will not smear, streak, haze or leave a film. Aerosol.

Per unit.

PF20030	517g Aerosol
---------	--------------

Pro Form Pinch Weld and Glass Bond Primer

A one-step solvent-based, fast drying formulation to be used in the final surface preparation when bonding urethane adhesives to glass, primed metals and pinch weld. This low conductive primer blocks 100% of harmful UV rays and maximizes adhesion between the glass and the pinch weld.

Per unit.

PF20110	30ml
---------	------

Pro Form Fast Cure Urethane Windshield Adhesive

A one-part moisture curing urethane adhesive designed for windshield bonding and stationary glass attachment. Meets FM VSS 212 and 216 O.E.M strength requirements.

Per unit.

PF20100	310ml	Black
---------	-------	-------

Pro Form Butyl Glass Sealer

Non hardening, pliable, water resistant sealer for sealing auto seams and between windshield rubber and car body. Can be used as a complimentary sealer for auto glass or tail light installation. It adheres to metal, wood, plastic and glass. Seals on wet or dry surfaces.

Per unit.

PF20000	300ml	Black
---------	-------	-------

Per unit.

Pro Form Dum Dum Strip Caulk

Easily tooled sealer that remains soft. Caulking material that will not crack or shrink. Good adhesion to metal, paint, glass, plastic and rubber. Can be painted immediately after application.

Per unit.

PF18150	4.7mm x 305mm	Black
PF18152	4.7mm x 305mm	White

Pro Form Non-Sag Epoxy Seam Sealer

A two part epoxy sealer designed to seal interior or exterior seams. This high solids formulation prevents shrinking and cracking. Excellent adhesion to metals, SMC and most plastics. Non-sag formulation for horizontal and vertical seams.

PF18140	200ml	Gray
---------	-------	------

Pro Form Brushable Rubber Based Seam Sealer

Paintable, sandable and withstands exposure to weather and temperature variations. Use on bare metal and all types of painted and primed surfaces. Use to seal sheet metal overlap joints and to match OEM seam sealer in trunks, firewalls etc. Will air dry in less than 1 hour.

Per unit.

PF18130	946ml	Off White
---------	-------	-----------

Pro Form Rubber Based Economical Seam Sealer

Fast drying, rubber based, economy sealer that skins in 2 to 3 minutes. Use to seal small gaps or seams where minimal flexibility is required. This product is easily tooled into a fine feather-edge. Adheres to bare or painted metals and automotive plastics.

Per unit.

PF18100	300ml	Off White
PF18102	300ml	Black

Pro Form Urethane Sealer / Adhesive

High density urethane sealer that eliminates shrinking often found in solvent and rubber based sealers. Recommended for large gap filling and where additional flexibility is required. It can also be used as an adhesive for metal, plastic and fiberglass. Recommended for applications that may be under stress and vibrations.

Per unit.

PF18120	310ml	Gray
PF18122	310ml	Black

Pro Form Heavy Bodied Seam Sealer

An epoxy non-sagging, non flowing seam sealer that is excellent for tooling. Has a fast cure. Ideal for jobs that need a thick, no run seam sealer.

Per unit.

PF18144	250ml	Pink
---------	-------	------

Pro Form Self Levelling Seam Sealer

An epoxy self levelling seam sealer. High solid formulation prevents shrinkage and cracking. Paintable in 30 minutes. Ideal for drip channels.

Per unit.

PF18146	250ml	Blue
---------	-------	------

Pro Form Controlled Flow Seam Sealer

A controlled flow epoxy seam sealer that will only run approximately 1.5 inches when applied at a 45 degree angle. It is excellent for sloped areas.

Per unit.

PF18148	250ml	Beige
---------	-------	-------

Pro Form Heavy Duty Caulking Gun

For rubber-based sealers and urethane in 300ml cartridges. Provides 3 times more leverage for easier pumping. Its' barrel swivels for easier access of hard to reach areas.

Per unit.

PF26182	Each
---------	------

Plastic & Bumper Repair Products

Pro Form Rigid Plastic Epoxy Repair

A two part high strength epoxy adhesive filler and surfacer designed to repair and bond rigid and semi rigid materials in a few minutes. It adheres to metal, aluminium, fibreglass, plastics, glass and wood. Resists gasoline, acid and solvents.

Per unit.

PF16200	2 x 150ml
PF16300	200ml

Pro Form Flexible Plastic Epoxy Repair

A two part high strength epoxy adhesive filler and surfacer designed to repair and bond flexible materials in a few minutes. Resists gasoline, acid and solvents. Excellent performance when used as a skim coat over structural adhesive.

Per unit.

PF16240	2 x 150ml
PF16340	200ml

Pro Form Urethane Structural Adhesives

Two part Urethane Structural Adhesives designed to bond and repair all plastics, fibreglass, SMC, metal and glass. OEM-approved. Black. 220ml Double cartridge.

Per unit.

PF17060	30 Seconds Open Time
PF17010	1.5 Minutes Open Time
PF17030	3.5 Minutes Open Time
PF17090	10 Minutes Open Time
PF17000	35 Minutes Open Time

Pro Form TPO Adhesion Promoter

Adhesion promoter that provides adhesion for refinishing of "problem" plastic substrates. Promotes adhesion of paints, primers, urethane and epoxy repair materials to thermoplastic olefins family of plastics (TPO). For spot repair.

Per unit.

PF16152	333g Aerosol
PF16154	946ml

Pro Form 2 Part Epoxy Bumper & Plastic Repair

Easy to use, two-part epoxy adhesive used to repair holes and cracks on all flexible parts, including interior plastic parts, dashboards and bumpers.

Per unit.

PF10048	2 x 15ml
---------	----------

Pro Form Epoxy Panel Bonder

Superior two part epoxy adhesive designed to bond steel, aluminium, SMC and fibreglass body panels. It seals and bonds in one application and prevents corrosion and waving caused by welding. Longer work time.

Per unit.

PF17100	220ml
---------	-------

Pro Form Trim and Bumper Primer

High performance quick-drying flexible primer. It provides good filling properties for priming of metals and plastics resulting in a smooth and flexible coating. Gray.

Per unit.

PF14002	340g Aerosol
---------	--------------

Pro Form Flexible Polyester Glazing Putty

A flexible polyester glazing putty formulated to be used as a finish coat over flexible body repairs to fill minor imperfections, deep sand scratches and pinholes prior to applying primer surface to improve the efficiency of the primer coat. Can be used on flexible and rigid surfaces, SMC, fibreglass, metal, galvanized steel and aluminium. Cream hardener included.

Per unit.

PF11300	880ml
---------	-------

Pro Form Trim and Bumper Coating

A quick drying, flexible paint for refinishing metals, plastic bumpers and flexible trim components. It etches metal surfaces, eliminating the need for priming. Can be applied on aluminium, stainless steel and galvanized steel. Good filling properties.

Per unit.

PF14020	425g Aerosol	Trim Black
PF14000	340g Aerosol	Euro Black
PF14004	340g Aerosol	Satin Black
PF14034	946ml	Euro Black
PF14036	946ml	Satin Black

Pro Form Mixing Tips Square

Mixing nozzles for double cartridges. This mixing nozzle screws directly to the cartridge. It ensures a perfect mixture of the two components and avoids introducing air in the mixture. Will fit most "screw type" double cartridges.

Per unit.

PF17900	12.8cm Pack of 6
---------	------------------

Pro Form Premium Manual Double Cartridge Gun

Comes fully assembled and ready to use.

Per unit.

PF26110	Each
---------	------

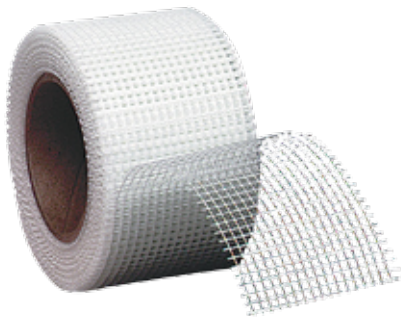

Pro Form Epoxy Sticks

A soft malleable epoxy that cures like hardened steel. Can be tapped, drilled, sanded, machined and filed. Excellent adhesion to metal, plastic, glass and copper.

Per unit.

PF18310	114g	Fix Steel
PF18320	114g	Aluminium

Pro Form Nylon Reinforcing Tape

Self adhesive backing tape to be used when repairing and filling holes and plastic gouges. It can be used with both epoxy and urethane adhesives.

Per unit.

PF17920	51mm x 19.8m
---------	--------------

Pro Form Structural Backing Patch

Combination of fibreglass cloth, fibreglass reinforcing tape and release film designed to provide additional strength to the repair.

Per unit.

PF17924	13 x 183cm
---------	------------

Pro Form Pro Pack Custom Filling System

Fill your own aerosol cans. Using appropriate filling system, the filled can may easily reproduce desired colour and finish without the use of a paint gun.

Per unit.

PF14200	215g	Universal
---------	------	-----------

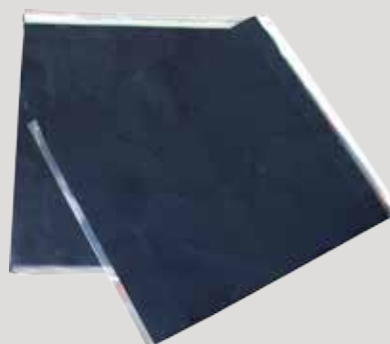

Pro Form Aluminized Sound Deadening Sheets

Solid butyl pad backed with pliable aluminium sheet. Reduces noise and seals out water and exhaust fumes. Applications: Floors, seams, cracks, rusted areas, tears, holes, trunks, door skins, floorboard surfaces and firewalls. Cuts to shape

Per unit.

PF18200	15 x 60cm Pack of 12
---------	----------------------

Pro Form Black Aluminized Sound Deadening Sheets

Butyl Rubber pad backed with pliable black aluminium sheet. For control of noise vibration and thermal insulation. Self Adhering, Sound dampening. Easily cut. Conforms to irregular surfaces. Flexible.

Per unit.

PF18206	30 x 30cm Pack of 10
---------	----------------------

Pro Form Sound Deadening Sheets

Self adhesive sound deadener sheets. Ideal for vehicle doors, floors, roofs and trunks. Will conform to irregular surfaces when heated. Easily cut.

Per unit.

PF18202	30.5 x 30.5cm Pack of 10
PF18204	73 x 81cm, Pack of 2

PRO FORM PRODUCTS

Pro Form Body Fillers

Pro Form Short Strand Reinforced Body Filler
Multi-purpose, high strength, short fibre reinforced filler designed to repair rusted out spots, holes, tears and cracks on fibreglass, regular and galvanized steel and SMC. The waterproof formulation also provides excellent feather-edging and sanding properties. Excellent for marine applications. Can be used with or without matting. Cream hardener included.

Per unit.

PF11200	750ml
PF11202	3 Litre

Pro Form Multi Fibre Repair Filler
A waterproof, high strength, polyester reinforced repair compound formulated with short and long strand fibres making it ideal for repairing fibreglass, SMC, galvanized steel, aluminium, rigid plastic body panels, panel bond seams, weld seams and rust damage. Smooth application perfect for filling gaps, cracks, holes and seams. Superior adhesion to steel, galvanized steel, aluminium and rigid composites or plastics. Ideal for double sided repairs. Cream hardener included.

Per unit.

PF11332	1.5 Litre
---------	-----------

Pro Form Revolution Gold Body Filler
Premium body filler designed to repair, fill and final finish in one easy application. Can be used as a sandable body filler or as a sandable finishing putty. Provides superior feather-edge properties and will not clog sandpaper. Stain free, tack free product with superior adhesion to steel, galvanised metal and aluminium. Cream hardener included.

Per unit.

PF11250	3 Litre
---------	---------

Pro Form Premium Finishing Putty
A premium polyester finishing putty that dries fast and will not shrink. Ideal for spot repairs such as filling grind marks and pinholes, other minor imperfections or glazing. It has an extra smooth texture that provides superior spreading and sanding qualities. Use over sanded topcoats or primers, or regular and galvanised steel. Cream hardener included.

Per unit.

PF11350	500ml
PF11352	1.5 Litre

Pro Form Revolution Self Levelling Finishing Glaze
An extra smooth, premium finishing glaze for use as a final skimming of polyester body glaze or for minor imperfections on bodywork, prior to painting. Superior adhesion. Cream hardener included.

Per unit.

PF11294	710ml
---------	-------

Pro Form Revolution Flowable Polyester Finishing Putty
Fills pin holes, sanding scratches and minor imperfections. It can be spread over a larger area than conventional glazing putties, and allows imperfections to be filled without altering contour. Can be spread extremely thin and sanded to an ultra-fine feather-edge. Ideal for use over sanded substrates, steel, galvanized steel and aluminium. When mixed with body fillers, it improves spreading and sanding. Cream hardener included.

Per unit.

PF11286	710ml
PF11288	880ml

Pro Form Lightweight Body Filler
A non-clogging body filler formulated to offer smooth spreading and easy sanding. Provides good adhesion to galvanized metal, wood, concrete, and fibreglass. Cream Hardener Included.

Per unit.

PF10002	369ml
PF10004	750ml

Pro Form Body Filler Kit
Designed to offer superior adhesion to bare metal, galvanized steel and fibreglass. Easy to sand non-clog filler. Kit includes: Body filler 369g, instructions, spreader, self-adhesive patch and 14g cream hardener.

Per unit.

PF10008	369ml Kit
---------	-----------

Pro Form Glazing and Spot Putty
A ready to use one-part red lacquer putty used to fill minor holes, scratches, pinholes, dents and other imperfections on metal or other body fillers. Dries quickly and sands easily. Minimal shrinkage, maximum holdout.

Per unit.

PF10000	127.5g
---------	--------

Pro Form Body Filler Additive

Body filler additive designed to reduce pinholes and restore body filler to a creamy, smooth texture for easy application.

Per unit.

PF11170	473ml
---------	-------

Pro Form Hardeners for Fillers and Putties

Per unit.

PF11002	113g White Cream Hardener
PF11026	75g Blue Cream Hardener
PF11046	44ml Liquid Hardener

Pro Form Plastic Spreader Kits

Flexible and precise edge provides a smooth application.

Per unit.

PF11910	3 Piece Kit	2.75", 3" and 3.5"
PF11914	5 Piece Kit	Range of Sizes
PF11916	72 Piece Kit	3x4"

Pro Form Fibreglass Repair

Pro Form Fiberglass Polyester Resin

A heavy, non sag, general purpose resin that can be used on fiberglass and metal. Can be used with Pro Form Fiberglass Mat, Cloth or Cloth Tape to build and repair. It cures to a hard, non tacky surface that can be sanded or filled. Liquid hardener included.

Per unit.

PF11460	946ml
PF11462	3.78 Litre

Pro Form SMC Resin

Resin used to repair SMC or fiberglass parts and components. Provide better adhesion, flexibility and faster curing time than regular fiberglass resin. It can be used with Pro Form reinforcing mat, cloth or cloth tape. Hardener included.

Per unit.

PF11400	946ml
PF11402	3.78 Litre

Pro Form Fiberglass Repair Kit

A heavy, non-sag, general purpose resin that can be used on fiberglass and metal. It cures to a hard, non tacky surface that can be sanded. Kit includes: Resin 236ml, Liquid Hardener 7.4ml, Reinforcement Cloth, Spreader and Directions for use.

Per unit.

PF10026	236ml Kit
---------	-----------

Pro Form Fiberglass Repair Kit

A heavy, non-sag, general purpose resin that can be used on fiberglass and metal. It cures to a hard, non tacky surface that can be sanded. Kit includes: Resin 946ml, Liquid Hardener 14ml, Fiberglass Mat, Spreader, Fiberglass Tape, Mixing Cup, Stir Stick and Directions for use.

Per unit.

PF10028	946ml Kit
---------	-----------

Pro Form Fiberglass Mat

Thick woven backing used with fiberglass resin. It provides high strength for stronger repairs or where build up is required.

Per unit.

PF11502	45 x 95cm
PF11506	270 x 95cm

Pro Form Fiberglass Cloth

6oz cloth to be used with SMC or fiberglass resin. When saturated with the resin, it provides reinforcement backing for repairing holes, cracks, tears, punctures and splits in SMC, fiberglass and metal. Will conform to any shape.

Per unit.

PF11500	90 x 95cm
PF11508	270 x 95cm

Pro Form Primers and Sealers

Pro Form 1K Self Etching Primer

This primer etches the surface of the bare metal to replace the metal conditioning step. It provides excellent corrosion protection. Use on steel, aluminium, galvanized steel, zinc coated steel and fibreglass. You can apply a topcoat directly on this product.

Per unit.

PF13100	340g Aerosol	Gray
PF13102	340g Aerosol	Black

Pro Form 1K High Build Primer / Filler

High solids, High Build Primer exhibits outstanding filling properties. Repairs surface defects in painted panels. Easy sanding and excellent colour holdout. Primer provides excellent adhesion to sanded OEM finishes, bare steel, aluminium, galvanized steel, fibreglass, body fillers and plastic substrates. You can apply a topcoat directly on this product.

Per unit.

PF13006	340g Aerosol	Olive Green
PF13000	425g Aerosol	Beige
PF13002	425g Aerosol	Light Gray
PF13008	425g Aerosol	Black

Pro Form Guide Coat

Guide Coat is designed to highlight imperfections on surfaces to be sanded. It is fast drying and helps to achieve a uniform sanded surface.

Per unit.

PF13806	340g Aerosol
---------	--------------

Pro Form 2K Epoxy Primer / Sealer 1:1

2K Epoxy Primer / Sealer is a chromate and isocyanate-free product designed to be used as a corrosion resistant primer. It dries fast and provides very good topcoat holdout. Primer can be used on all properly prepared metals and plastics.

Per unit.

PF13150	946ml	Gray Primer
PF13156	946ml	Activator
PF13152	3.78 Litre	Gray Primer
PF13154	3.78 Litre	Black Primer
PF13158	3.78 Litre	Activator

Pro Form 2K Urethane Primer / Surfacer 4:1

High solids. Can be used as a very high build or medium build primer and as a non-sanding primer sealer. Provides exceptional fill and build characteristics providing a base that yields excellent topcoat holdout, gloss and D.O.I. Can be directly top coated with alkyd and acrylic enamels, lacquers, acrylic urethane enamels and waterborne basecoat clear coat systems.

Per unit.

PF13062	946ml	Gray Primer
PF13068	236ml	Activator

Pro Form Direct To Metal 2K Urethane High Build Primer 4:1

A two component primer surfacer that can be applied direct to metal surfaces. It provides corrosion protection along with excellent fill and build properties. Easy to sand.

Per unit.

PF13410	946ml	Black Primer
PF13414	946ml	White Primer
PF13406	236ml	Activator

PF13400	3.78 Litre	Gray Primer
PF13408	3.78 Litre	Black Primer
PF13412	3.78 Litre	White Primer
PF13402	946ml	Activator

Pro Form Clearcoats

Pro Form 1K Acrylic Clearcoat

Fast drying. For use over car, truck, van and SUV small spot and panel repairs. This ready-to-use product will provide a durable, high gloss finish to protect your paint. Exceptional for use on replacement parts, door jambs, hood and truck jambs and cut-ins. UV resistant.

Per unit.

PF12100	423g Aerosol	PF12332	946ml
PF12330	340g Aerosol	PF12334	3.79 Litre

Pro Form Acrylic Lacquer Thinner

Dilutes lacquer based paints, primers and clears. It provides easy flow and expected gloss. This thinner does not contain any reclaimed solvents and is compatible with most major paint systems.

Per unit.

PF13600	946ml
PF13602	3.79 Litre

Pro Form Blending Clear Solvent

Dissolves edges on 2K clearcoat applications. Excellent for blending single-stage paint systems. Use for spot repairs with PF12330 and PF12100. Leaves an invisible blend.

Per unit.

PF12102	357g Aerosol
---------	--------------

Pro Form Clearcoat 2:1

An economical urethane clear formulated for spot, panel and overall repair. It's easy to spray and apply and will produce a high gloss fast dry finish with easy buffing that will perform with water based and solvent based basecoat systems.

Per unit.

PF12250	5 Litre Clear
PF12254	2.5 Litre Medium Activator
PF12256	2.5 Litre Fast Activator

Pro Form Universal European Clearcoat 2:1

Medium solid universal overall clear formulated to offer the versatility of three activators for spot, panel and overall repair. It will produce a high gloss, fast dry finish with easy buffing that will perform with water based and solvent based basecoat systems.

Per unit.

PF12300	5 Litre Clear
PF12304	2.5 Litre Medium Activator
PF12306	2.5 Litre Fast Activator

Pro Form Super Express Clearcoat 4:1

High solids acrylic urethane clearcoat for higher shop production. Ideal when speed and production are required without sacrificing gloss and premium finish. It provides excellent flow, levelling and UV protective properties. Can be sprayed in 1 heavy coat or 2 regular coats and polished in 1 hour. Will perform with water based and solvent based basecoat systems.

Per unit.

PF12560	946ml Clear	PF12260	3.79 Litre Clear
PF12562	236ml Activator	PF12262	946ml Activator

Pro Form Clearcoat 4:1

An economical urethane clear formulated for spot, panel and overall repair. It's easy to spray and apply and will produce a high gloss fast dry finish with easy buffing that will perform with water based and solvent based basecoat systems.

Per unit.

PF12360	946ml Clear	PF12350	3.79 Litre Clear
PF12356	236ml Activator	PF12354	946ml Medium Activator
		PF12358	946ml Fast Activator

Pro Form Protective Coatings

Pro Form Paintable Rocker Panel Protector

Tough textured premium quality all rubber-based coating for protecting rocker panels and valence panels from stone chips and other abrasions. Use on undercarriages and fender wells. Excellent sound deadening properties. Paintable and flexible. Excellent adhesion to metals and plastics.

Per unit.

PF22144T	1 Litre	Black
PF22146	3.79 Litre	Black
PF22148	18.9L	Black
PF22050	446g Aerosol	Black

PF22056	560g Aerosol	Black

PF22220

Pro Form Buck Shot Truck Bed Protective Coating Kits 3:1

Easy to use, UV resistant protective coating that provides superior chemical resistance and protection against impact abrasion, rust and corrosion. 2K Truck Bed Protector provides maximum bed protection, toughness and durability.

PF22220 Kit includes:
4x 887g Resin Coating
1x 1182g Activator
Measuring Cup
Gun

PF22256 Kit includes:
3 x 798ml Resin Coating
1 x 887ml Activator
Measuring Cup
Gun

Per unit.

PF22220	4.7 Litre Kit	Black
PF22256	3.5 Litre Kit	Tintable

Pro Form Non Paintable Rubberized Undercoat

A fast drying, heavy bodied rubber and asphalt coating for sealing, sound deadening, hiding repairs and rustproofing. Provides excellent adhesion to bare or painted metals and plastics. Also works as a sealant for house gutters, fence posts and trees after pruning.

Per unit.

PF22108	18.9 Litre	Black
---------	------------	-------

Pro Form Inner Panel Cavity Wax Rustproofing Kit

Do-it-yourself rustproofing for inner panel protection. Use on door, rails, fenders, posts, trunks or any hard to reach areas.

Kit includes: Cavity Wax 503g Aerosol x2, Flexible Wand Cleaner 177ml Aerosol, 36" Flexible Wand with 360° brass spray tip, Short Extension Tips x2, Extra Aerosol Spray Nozzles x2, Rubber Plugs x12.

Per unit.

PF21242	Aerosol Kit
---------	-------------

Pro Form Wax Based Permanent Rustproofing

High quality wax based chemically compounded rustproofing that provides excellent protection. Product bonds to metal surfaces by molecular attraction. It can be used in both interior cavities and exterior surfaces. It remains tacky and flexible.

Per unit.

PF21020	389g Aerosol	Amber
PF21026	3.78 Litre	Amber
PF21028	18.9 Litre	Amber

Pro Form Hybrid Rustproofing

A rustproofing formulation made out of a perfect blend of wax and oil that provides a superior resistance to road abrasion. The initial flowable state of this formulation allows easier application and better penetration into seams and cavities. It then thickens when in contact with air to provide maximum adhesion.

Per unit.

PF21104	3.78 Litre	Black
PF22106	18.9 Litre	Black

Pro Form Paint Strippers / Rust Converters & Other Repair Products

Pro Form Sprayable Paint Stripper

Removes paint and refinishing materials in one easy application. Fast acting formulation will strip old coating in a few minutes. Use with caution on plastics and fiberglass parts.

Per unit.

PF14360	531g Aerosol
---------	--------------

Pro Form Aircraft Paint Stripper

A high strength paint stripper for all metal and wood surfaces. Easy application and fast working. Use on basecoat/clear coat, polyurethanes, enamels, lacquers and primers.

Per unit.

PF14364	946ml
PF14362	3.78L

Pro Form Rust Converter

Coating designed to stop rust and convert it into a firm and insoluble surface. Body filler can be applied directly over the coating. Can also be used for many applications such as automotive, industrial, marine or domestic use. Must be painted.

Per unit.

PF14500	473ml
PF14502	946ml

Pro Form Rust Remover

A powerful formula that removes rust from steel, chrome and iron. It eliminates sanding and leaves a protective coating to inhibit further rust formation. Ideal for cars, trucks, bikes, tools, barbecues and all chrome plated items. Paintable.

Per unit.

PF14520	473ml
---------	-------

Pro Form Rust Penetrant

A high strength penetrating lubricant that will pierce rust bond and free seized or rusted metal parts in one single application. It leaves a residual film of graphite to form a protective coating to guard against corrosion and wear.

Per unit.

PF23008	340g Aerosol
---------	--------------

Pro Form Clear Penetrating Grease

Penetrating grease formulated to flow into tight areas to lubricate and protect against wear, rust and corrosion. Flows as a liquid then gels in 20 – 30 seconds to form a uniform coating of grease. Best product available for lubricating hinges and bushings.

Per unit.

PF23014	304g Aerosol
---------	--------------

Pro Form Weld Through Zinc Primer

An anti-corrosive coating that has excellent adhesion and flexibility. Applied on steel or galvanized metal, it stops rust by an electro-chemical reaction even in highly corrosive environments. Prevents rust creepage in the area of scratches unlike conventional primers. Apply to ferrous metals prior to welding to prevent corrosion and rust. May be applied after the weld for additional protection.

Per unit.

PF13804	368g Aerosol
---------	--------------

Pro Form Copper Weld Through Primer

An anti-corrosive coating that has excellent adhesion and flexibility. Applied on steel or galvanized metal, it stops rust by an electro-chemical reaction even in highly corrosive environments. Prevents rust creepage in the area of scratches unlike conventional primers. Apply to ferrous metals prior to welding to prevent corrosion and rust. May be applied after the weld for additional protection.

Per unit.

PF13810	355g Aerosol
---------	--------------

Pro Form Enamel Paint

Premium quality, fast drying enamel paint. It offers excellent adhesion to metal, wood, fiberglass and rigid plastics.

Per unit.

PF14102	283g Aerosol	Flat Black
PF14104	283g Aerosol	Gloss Black
PF14106	283g Aerosol	Semi-Gloss Black

TAPES

Pro Form Solvent and Cleaners

Pro Form Wax and Grease Remover

Strong pre-cleaner solvent to be used at the beginning of the repair cycle. It provides superior cleaning power for removal of silicone, wax, oil, tar, grease and other stubborn contaminants.

Per unit.

PF13524	946ml
PF13520	3.78 Litre

Pro Form General Purpose Adhesive Cleaner

A quick acting, multi-purpose automotive body work solvent removes adhesives, silicone, wax, grease, oil, tar, cement and road film from metal, vinyl, rubber, glass, and cured paint. Will not harm most thoroughly cured automotive paint, vinyl, fabrics and plastic surfaces when properly used.

Per unit.

PF19006	425g Aerosol
PF19000	946ml

Pro Form Final Wipe Solvent

Final Wipe is to be used as a mild solvent cleaner to remove sanding dust and compound residue from primed or painted metal surfaces.

Per unit.

PF13502	3.78 Litre
PF13504	18.9 Litre

Pro Form Liquid Mask

Water-based clear Liquid Mask to protect against paint overspray. Effective and economical masking solution. Dries to a firm coating that will not adhere to skin and clothing. Excellent for booth coating. Will dissolve easily when washed with cold water. Use on body panels, door jambs, engine compartments, wheel wells, grills, etc.

Per unit.

PF14402	18.9 Litre
---------	------------

Pro Form Scuff and Clean

Scuff, degrease and clean paint repair surfaces in one step. Specifically formulated to break down surface contaminants such as grease, oil, wax, silicone, tar and road film. It will lift off contaminants so they can be easily washed off with water. Eliminates repair problems such as fish eyes, blisters and peeling. The use of Scuff and Clean maximizes inter coat adhesion.

Per unit.

PF13808	3.78 Litre
---------	------------

Pro Form Waterborne Final Wipe Solvent

A mild solvent cleaner, formulated with deionized water, to remove sanding dust and compound residue from primed or painted metal surfaces.

Per unit.

PF13508	3.78 Litre
---------	------------

ETDP24 / ETDP1 / ETDP5
Eco Touch Dashboard Protect

One of the best ways to protect your car's interior vinyl, plastic and trim is to apply a high-quality protectant. Think about it for a minute. Everyday your car sits out in the sun taking on the sun's UV rays. It would be like going suntanning 365 days a year, but not applying suntan lotion! To keep your car interior looking it's best, you need some type of protection. That's where our Dashboard Protect comes in. Just spray, wipe and you're done. No grease. No gloss. Just clean.

- Special Features:**
- Conditions & protects vinyl, leather, trim & plastic
 - No sticky or shiny residue
 - Pleasant lavender fragrance

Per unit.

ETDP24	710ml
ETDP1	3.78 Litre
