

RUPES®

NEW D-A SERIES ORBITAL POLISHING FOAM PADS HIGH PERFORMANCE

RANDOM ORBITAL

GEAR DRIVEN

The result of years of research, testing, and development, the new RUPES D-A foam pad range offers increased performance, versatility, and optimized user experience. Developed specifically to compliment the high-performance D-A compounds, these innovative new pads feature proprietary foam formulas and a patented contour edge design which have been extensively tested and optimized for both gear-driven and random orbital tool movements. The reduced pad height, combined with the all-new foam materials, optimizes the transfer of energy from the tool to the application surface for more effective defect removal and higher quality finishing. The contour edge design has been strategically designed to maintain safe operation near edges. Additionally, the new pad profile improves the consistency of pad movement in curves and contours by reducing pad distortion. With every adjustment to the pad materials and design, RUPES engineers and product development specialists carefully considered the operator experience to ensure users would realize increased stability, performance, and ease of use. The new RUPES D-A foam pads represent the next step in the evolution of polishing pad performance for all orbital tools.

NEW PATENTED DESIGN DESIGNED AND MANUFACTURED IN ITALY BY RUPES

REDUCED PAD
HEIGHT

CONTOURED
PROFILE

D-A COARSE

HIGH PERFORMANCE COARSE
CUTTING FOAM PAD

The **D-A COARSE** foam pad is the most aggressive in the BigFoot foam pad range. Compatible with both random orbital and gear-driven tools, the unique open-cell foam material helps to manage heat while it removes mild to severe defects from most paint systems. The foam material is optimized for use with RUPES DA-COARSE compound.

D-A FINE

HIGH PERFORMANCE FINE
FINISHING FOAM PAD

The **D-A FINE** foam pad is the most versatile foam pad in the RUPES BigFoot range, delivering an effective rate of defect removal and capability for high-gloss finishing on most paint systems. Pair with RUPES D-A FINE polishing compound for moderate to fine defect removal, paint refinement, or final finishing after heavy compounding steps.

D-A ULTRA-FINE

HIGH PERFORMANCE
ULTRA-FINE FOAM PAD

The **D-A ULTRAFINE** foam pad is designed for high gloss finishing and polishing on haze-prone or very soft paint surfaces. It can also be used for the application of sealants or waxes. Pair the D-A Ultrafine foam pad with UNO PURE Ultrafine Universal Polish to remove extremely fine defects or to bring out a show car level finish.

PROTECTED TO MAINTAIN PERFORMANCE

PADS PACKAGED INDIVIDUALLY IN A RESISTANT METALLIC FILM FLOW PACK

Each RUPES D-A Foam Pad is individually packaged in a new metallic film flow pack which provides the ultimate in protection for pads, ensuring your pad is factory-fresh when you're ready to use it. The flow pack guarantees a high level of protection against various environmental factors which could diminish performance:

- FULLY SEALED**
- RIP & TEAR RESISTANT**
- COMPLETE UV PROTECTION**
- PREVENTS DUST**
- STOPS EXPOSURE TO MOISTURE & HUMIDITY**

A SIMPLE AND INTUITIVE POLISHING SYSTEM
Color coded packaging helps to identify the recommended combination of RUPES BigFoot High-Performance D-A polishing compounds and pads for each application. Scan the QR-Cod and find additional recommendations using the RUPES Paint Correction Web-App

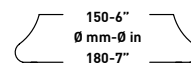

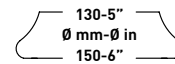

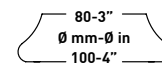

D-A FOAM PADS PRODUCT CODES

Code	Description	Unit
● 9.DA100H	COARSE	1 pack with 1 foams
● 9.DA100M	FINE	1 pack with 1 foams
○ 9.DA100S	ULTRA FINE	1 pack with 1 foams
● 9.DA100H/48	COARSE	1 pack with 48 foams*
● 9.DA100M/48	FINE	1 pack with 48 foams*
○ 9.DA100S/48	ULTRA FINE	1 pack with 48 foams*

Code	Description	Unit
● 9.DA150H	COARSE	1 pack with 1 foams
● 9.DA150M	FINE	1 pack with 1 foams
○ 9.DA150S	ULTRA FINE	1 pack with 1 foams
● 9.DA150H/48	COARSE	1 pack with 48 foams*
● 9.DA150M/48	FINE	1 pack with 48 foams*
○ 9.DA150S/48	ULTRA FINE	1 pack with 48 foams*
