Fact Sheet

Dry Wash & Wax

One Step Waterless Cleaner and Wax

Product Description

Profile Dry Wash and Wax is an easy to use, one-step waterless cleaner and wax that will restore gloss and give long lasting protection to many common surfaces. Containing no abrasive materials, Profile Dry Wash and Wax will not damage delicate surfaces but its powerful cleaners will dissolve and remove surface contaminants including dirt, insects, salt and oil. It is easily applied and wiped off in a single process using a microfiber cloth and will leave a UV resistant wax coating on the surface which will protect from the worst effects of sun, sea and rain.

Technical Information

Appearance: Straw-coloured liquid
Viscosity: Low viscosity
VOC Content: 10.7% of total product
Relative Density: 0.94
pH: 10
Types of Surface: Polyurethane paints, poly acrylic paints and gelcoats.

Product Information

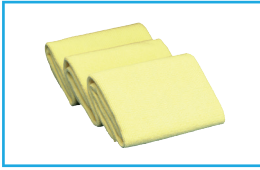

Size	Code	Ctn Qty
1 litre (34 fl.oz.)	PRODWW-1000	6

Key Benefits

• Environmentally Responsible	Waterless wash and wax giving powerful cleaning and long lasting protection in one easy step, resulting in less contamination and better use of resources
• Easy to Use	Wipe on, wipe off procedure with no specialised equipment needed
• Fast & Efficient	Fast and economical with a small amount covering a large surface area
• Protection	Leaves a durable, translucent protective barrier beading away liquid contaminants and protecting against UV degradation, salt spray, exhaust contamination and pollution
• Surface Friendly	Non abrasive, non corrosive formula that is safe to use on all surfaces including composites, gelcoats, aluminium and paint

Use With

Hand Application

Farécla Finishing Cloth
FC-3

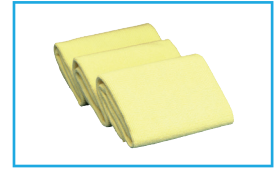

Machine Application

G Mop 8" Advanced
Lambswool Pad
AGM-LWP8

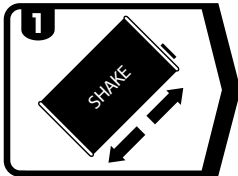

G Mop 8" Advanced
Back Plate
AGM-BP814 (14mm)

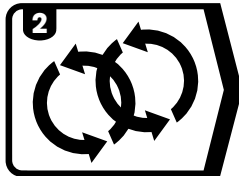

Farécla Finishing Cloth
FC-3

How To Use

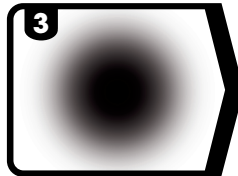

For moderately soiled surface conditions*

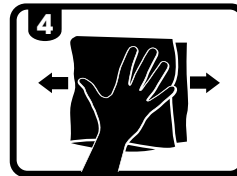

Shake well before use
[PRODWW-1000](#)
(1 ltr)

Apply product sparingly to the surface in a circular overlapping motion with cloth
[FC-3](#)
Alternatively use a
Lambswool Pad
[AGM-LWP8](#)

Allow wax to dry to a haze (note: this will only take 2 - 3 minutes under most conditions)

Buff off with a clean, dry microfibre cloth or towel. No rinse is required

Note: for best results clean slowly section by section

For heavily soiled surface conditions*

For heavily soiled surfaces with grease, oil and exhaust build up a second application may be required and the process above should be repeated.

Note: Will not remove below-surface hydraulic / engine oil stains or surfaces scratches

*It is always recommended to test on an inconspicuous area prior to general use

Additional Information

Profile Dry Wash and Wax is used for cleaning boats, caravans, commercial vehicles, trains and aeroplanes. It will clean and protect most surfaces without the need for large quantities of water. It is often used as part of a regular maintenance schedule to improve performance by keeping surfaces free of dirt and contaminants and protecting from the worst effects of weathering in harsh environments.
