

PROFILE

Fact Sheet

Power Wash

Concentrated Cleaner & Wash

Product Description

Profile Power Wash is a concentrated cleaner and wash that thoroughly cleans all areas of your boat, caravan, truck or plane. It also leaves a thin protective film on the surface that helps reduce streaking, gives a great gloss finish and helps protect the surface from future build up of dirt. It will remove most surface dirt, contamination and grime and can be used either by hand or in a power washer. It is marine safe and, unlike many aggressive automotive cleaners, will not dull gelcoated surfaces.

Product Information

Size	Code	Ctn Qty
1 litre (34 fl.oz.)	PPW101	6
5 litres (170 fl.oz.)	20101-5000	2

Technical Information

Appearance: Green coloured liquid
Viscosity: Non-viscous
VOC Content: 0% of total product
Relative Density: 0.995 - 1.005
pH: 6.0
Types of Surface: All surfaces

Use With

Hand Application

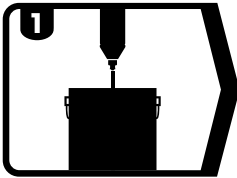

Sponge

Farécla Finishing
Cloth
FC-3

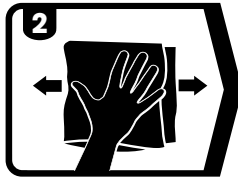

How To Use

For light to moderately soiled surfaces

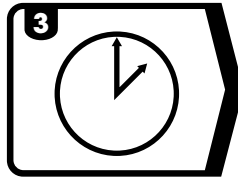

Dilute product
PPW101 (1 ltr)
Dilution needed:

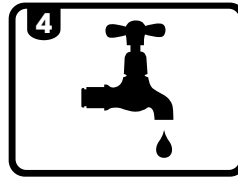

- Light Cleaning 250:1
- Moderate Cleaning 100:1
- Heavy Cleaning 50:1

Apply product
generously with
sponge, cloth or
mop, removing
dirt and
contamination

Work the product
well into any
stubborn marks and
allow to soak in for
3-5 minutes before
cleaning off

Rinse using clean
water and allow to
dry naturally

Application by Power Washer

Use Profile Power Wash diluted 50:1 in a power washer. Rinse with clean water after power washing and allow to dry naturally.

*It is always recommended to test on an inconspicuous area prior to general use

Additional Information

Profile Power Wash is used for regular cleaning of boats, caravans, trucks and planes. It can be used on all surfaces and is safe for frequent use without any risk of surface dulling or damage. It can be used in different levels of dilution by hand or in a power washer and is low foaming and marine safe for use in environmentally sensitive situations.
