

Professional High Shine Shampoo

CLEAN

SOFTENS AND LIFTS DIRT - IDEAL PREPARATION FOR SURFACE RECTIFICATION

PRODUCT DESCRIPTION

Before starting any kind of surface restoration or wax application, it is imperative that all loose debris and dirt has been removed to prevent scratching. **G3 Pro High Shine Shampoo** removes surface contaminants to leave your surface thoroughly clean and prepared for renovation, scratch removal and waxing. The concentrated, low-sud formula allows you to check the surface as you're cleaning.

PRODUCT INFORMATION

Size
500ml

Part No.
7192

Part No.
6

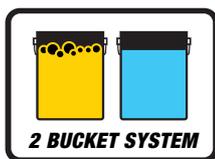

TECHNICAL INFORMATION

Appearance: green liquid
VOC Content: 0g/L
Relative Density: 1.026
pH: 7 - 8
Silicones: none

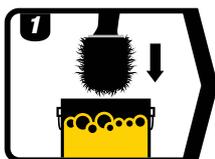

REMOVES DIRT SAFELY, PREVENTING HARD DIRT DAMAGING SURFACES

LOW SUD - EASY TO SEE THE SURFACE DURING CLEANING

SMALL QUANTITY OF PRODUCT NEEDED

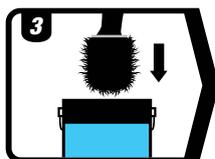

The 2 bucket system:
Bucket 1 = a mixture of 20ml of product (about 2 capfuls) per 10 ltr of lukewarm water
Bucket 2 = clean, lukewarm water

Place a **G3 Pro Lambs Wool Wash Mitt** into the Wash & Wax solution

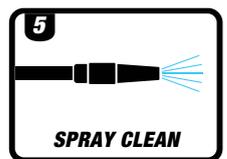

Wash vehicle, with the soaked mitt, in sections

Clean the mitt in the lukewarm water to remove dirt between washes

Place the clean mitt back into the solution and clean the rest of the vehicle, washing the mitt between uses

Rinse off soapy residue and dry with a **G3 Pro Drying Towel** or **G3 Pro Super Soft Microfibre Fleece**
