Size	Part No.	Ctn. Qty.
500ml	7206	6
1 US gallon	7218	1
5 US gallons	7219	1

TECHNICAL INFORMATION

Appearance: yellow liquid
 VOC Content: 20g/L
 Relative Density: 1.04 - 1.08
 pH: 7.5 - 9.5
 Silicones: none

HIGHLY CONCENTRATED

SAFE ON ALL SURFACES

DOES NOT REMOVE EXISTING WAX LAYERS

The 2 bucket system:
 Bucket 1 = a mixture of 20ml of product (about 2 capfuls) per 10 ltr of lukewarm water
 Bucket 2 = clean, lukewarm water

Place a **G3 Pro Lambs Wool Wash Mitt** into the Wash & Wax solution

Wash vehicle, with the soaked mitt, in sections

Clean the mitt in the lukewarm water to remove dirt between washes

Place the clean mitt back into the solution and clean the rest of the vehicle, washing the mitt between uses

Rinse off soapy residue and dry with a **G3 Pro Drying Towel** or **G3 Pro Super Soft Microfibre Fleece**
